

## Covid-19 Operations

Gov. Jay Inslee published on May 15<sup>th</sup> a memorandum allowing Professional Photography to resume with the transition to Phase 2 at the same time as other personal services. With it came a list of requirements and recommendations. To meet these requirements, we made some changes to our policy:

### What's New.

- Contactless payment only (Apple Pay, Google Pay or Instant Invoice)
- Intake form now online
- No more handshake greetings, and respect of social distancing norms
- No person other than the subject can be present for the session, except if the subject is a minor
- Immediate Family Photography is OK but any other group photography is not allowed at this time.
- Open windows policy. To maximize airflow and minimize risks, we will keep the windows and door open during session
- Cleaning/Sanitizing the area used and props after each client.
- Mandatory signage in the studio has been installed.

### What's not changing.

- We are continuing to work by appointment only
- Studio schedule is still M-F 9a-7p and Sat 9-12
- 1 client at a time - We always made sure we have enough time between each session
- Washing hands after each session
- Weekly deep cleaning of the studio
- Outstanding service and images!
